	600 x 300 x 10 mm
	400 x 400 x 10 mm
	600 x 600 x 10 mm
Slab Sizes	3040 x 1410 mm
	3040 x 1440 mm

Slab Thickness 20 mm & 30 mm

Product Features

	Quantum Quartz
Non-porous	✓
High Scratch & Chip Resistance	✓
High Abrasion Resistance	✓
High Resistance to Staining	✓
High Flexural Strength	✓
High Resistance to Acid	✓

The Ultimate in Stone Technology and Sophistication

The Quantum Quartz manufacturing process is renowned worldwide and contains more than 93% natural quartz, 7% combined bonding agent, special additives and pigments, making it an extremely hard wearing, practical and highly versatile surface.

Quantum Quartz benchtops and floors reflect the modern style and trend that leading architects and designers prefer. With high abrasion resistance, strength and durability.

Quantum Quartz is the ideal low maintenance, hygienic choice for all interior applications.

Quantum Quartz looks great and with its sleek lines and finishes you can be assured many years of lasting beauty and style that you would expect and appreciate of such a highly reputable product.

Quantum Quartz surfaces are of the highest quality and offer a 10 Year Limited Warranty.

Benchtop Edge Detail

Please find below a list of possible edging details available – other custom profiles are available – please consult Quantum Quartz for further information.

Quantum Quartz is the ideal low maintenance hygienic choice for all interior applications, highly scratch, stain and heat resistant

Please visit our website for Care & Maintenance and 10 Year Limited Warranty information

Note: Quantum Quartz is a natural based surface. It may contain variation in colour due to raw materials. Particles used in the products may sometimes produce minor irregularities such as blotches and coloured particles. It is recommended for the customer to view the whole slab.

QUANTUMMARBLE  
DESIGNER STONE

Quantum Marble is a pre-cast product made of selected marble pieces, bonded with resin, giving it the classic appearance of natural marble. It has similar qualities to marble and is therefore not recommended for food preparation areas. Quantum Marble requires sealing.
